

Customers With Multiple Food Allergies or Special Menu Requests.

At G-Zen we take we pride ourselves in being well versed in many food allergies or food sensitivities.

NO SOY, NO SALT, NO GLUTEN, NO DAIRY, NO OIL, NO NIGHTSHADES, NO ONIONS & GARLIC to name a few.

Our menu is geared to accommodate some of these food allergens directly off the menu. For simple alterations, we can happily suggest things that would be a good choice for you. However for more complex dishes or more complicated dietary requests, many of the items or item components may have to be omitted or altered (if it's possible to do so) to accommodate your dietary requests. In some cases, certain dishes will not be able to be altered or offered. However, if given time and notice, we can make appropriate suggestions that would work for your needs.

In this situation, we ask that you call ahead and make a reservation so that we have time to take your dietary requests into consideration.

We cannot offer this level of service and provide the extra time needed when we are not prepared ahead. It is also difficult to provide this extra attention during very busy Weekends, Holidays or Special Events at the restaurant.

We will always strive to do our best to serve you and make G-Zen a pleasurable dining experience.

***Please note:** We reserve the right to decline any custom menu modifications or alterations. Menu modification fees may apply.*
